## INTRODUCTION

Final figures from the 1971 Housing Census are shown in this report which is one of a series comprising Volume II (Part 3) of the 1971 Census. Single detached, owner-occupied, non-farm dwellings are classified by value, number with a mortgage, holder of first mortgage and number with garage on property. Tenant-occupied non-farm dwellings are classified by monthly cash rent and items included in rent. Figures are shown for the following areas:

- (i) Canada and provinces, urban size groups and rural (Tables 34, 39, 44);
- (ii) census divisions (Tables 35, 40, 45);
- (iii) incorporated cities and towns and other municipal subdivisions of 10,000 population and over (Tables 36, 41, 46);
- (iv) census metropolitan areas, urbanized core and fringe (Tables 37, 42, 47);
- (v) census agglomerations, urbanized core and fringe (Tables 38, 43, 48).

The information in this report was collected on a 33 1/3% sample basis. As a result, the number of occupied dwellings for a given geographic area may differ from that shown in reports containing data collected on a 100 p.c. basis. The latter figures, of course, represent the official count of occupied dwellings (see Catalogue No. 93-727).

The 1971 Census figures in this report have been subjected to a confidentiality procedure to prevent the possibility of associating small figures with any identifiable individual. The particular technique used is known as "random rounding". Under this method, all last or "unit" digits in a table (including all totals) are randomly rounded (either up or down) to "0" or "5". This technique provides the strongest possible protection against direct, residual, or negative disclosures without adding any significant error to the census data. However, since totals are independently rounded they do not necessarily equal the sum of individual rounded figures in distributions. Similarly percentages, which are calculated on rounded figures, do not necessarily add to the total. Also, minor differences can be expected for corresponding totals and cell values in various census reports.

The estimates of the mean square error for the characteristics covered in this report were not available at the time of publication. They will be available in the introductory report to this volume (Catalogue No. 93-726). Those users requiring this information prior to the release of the introductory report should contact the Census User Inquiry Service.

Ce bulletin qui fait partie d'une série du recensement de 1971 (volume II, partie 3) présente les chiffres définitifs du recensement de 1971 sur les logements. Les logements individuels non attenants, non agricoles, occupés par leur propriétaire sont classés selon la valeur, le nombre de logements hypothéqués, le détenteur de la première hypothèque, et le nombre de logements disposant d'un garage dans la propriété. Les logements non agricoles occupés par un locataire sont classés selon le loyer mensuel en espèces et les services compris dans le loyer. Les chiffres sont publiés pour les secteurs suivants:

- i) Canada et provinces, régions urbaines par groupe de taille et régions rurales (tableaux 34, 39, 44);
- ii) divisions de recensement (tableaux 35, 40, 45);
- iii) cités et villes constituées, et autres subdivisions municipales de 10,000 habitants et plus (tableaux 36, 41, 46);
- iv) régions métropolitaines de recensement, noyau urbanisé et banlieue (tableaux 37, 42, 47);
- v) agglomérations de recensement, noyau urbanisé et banlieue (tableaux 38, 43, 48).

Les renseignements de la présente publication ont été recueillis par un échantillonnage de 33 1/3 %. Il s'ensuit que le nombre de logements occupés pour une région géographique donnée n'est pas forcément le même que celui des publications dont les données avaient été recueillies à 100 p. 100. Bien entendu, c'est ce dernier chiffre qui représente le dénombrement officiel des logements occupés (voir la publication n° 93-727 au catalogue).

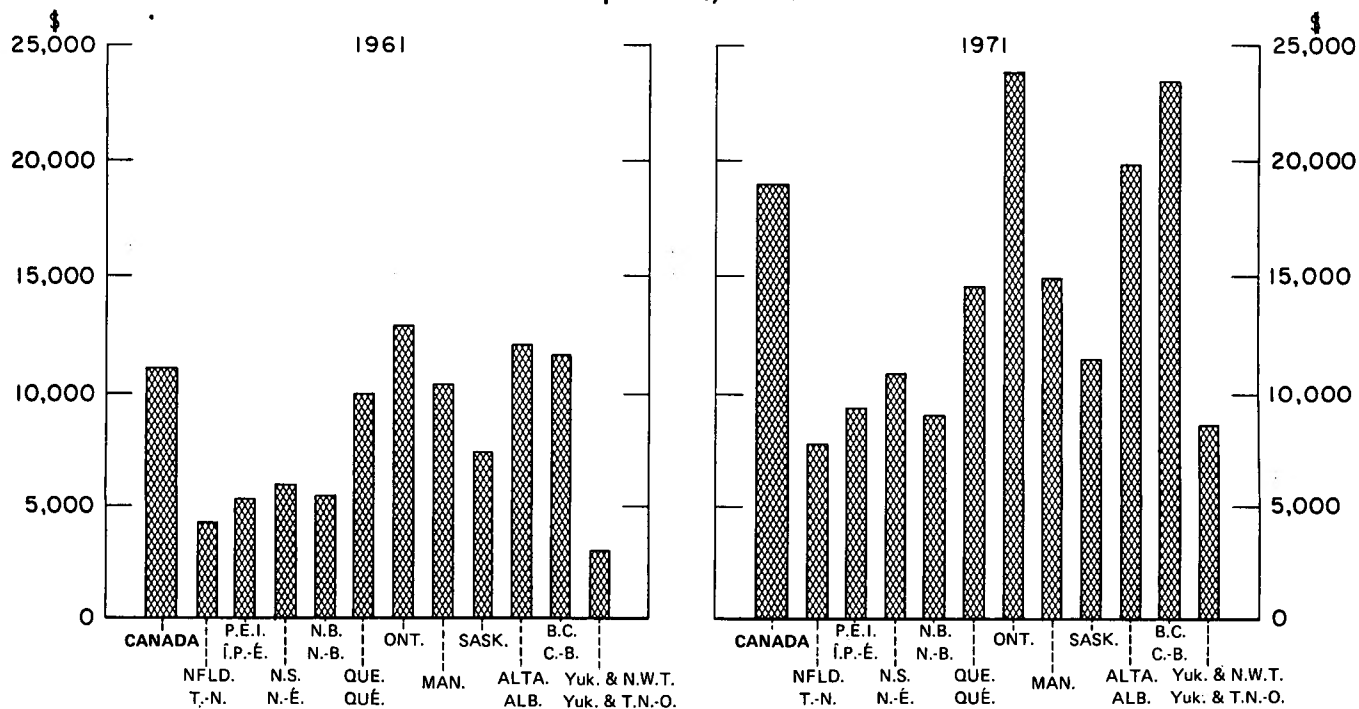

Par souci de confidentialité, les chiffres de 1971 publiés ici ont été soumis à une formule qui garantit l'impossibilité d'associer des chiffres de faible importance à une personne reconnaissable. Cette technique particulière s'appelle l'"arrondissement aléatoire". Grâce à cette méthode, tous les derniers chiffres, c'est-à-dire les chiffres des unités, des tableaux (y compris tous les totaux) sont arrondis de façon aléatoire (vers le haut ou vers le bas) à "0" ou à "5". Cette technique assure la protection maximale contre la divulgation directe, négative ou par recoupements, sans ajouter d'erreur significative aux données. Toutefois, puisque les totaux sont arrondis séparément, ils ne sont pas nécessairement égaux à la somme des chiffres individuels arrondis dans les distributions. De même, la somme des pourcentages calculés à partir de chiffres arrondis ne correspond pas forcément au total. Aussi, il faut s'attendre que les totaux et les autres chiffres correspondants dans divers bulletins du recensement présentent quelques légères différences.

Les estimations de l'erreur quadratique moyenne des caractéristiques données dans ce bulletin n'étaient pas disponibles au moment de la publication. Elles seront disponibles dans le rapport introductoire de ce volume (n° 93-726 au catalogue). Les utilisateurs demandant ce renseignement avant la publication du rapport introductoire devraient s'adresser au Service-utilisateurs, Recensement.

## DEFINITIONS

**Dwelling:** Refers to a structurally separate set of living quarters with a private entrance from outside or from a common hallway or stairway inside the building, i.e., the entrance must not be through someone else's living quarters.

**Owned:** Refers to a dwelling which is owned by some member of the household. This includes dwellings under separate ownership in any multiple dwelling structure.

A dwelling is classified as owned even though it may be mortgaged.

**Rented:** Refers to a dwelling which is not owned by any member of the household.

**Value:** Figures for "value" relate to single detached owner-occupied non-farm dwellings, and are based on the amount expected by the owner if the dwelling were to be sold to a willing buyer.

**Mortgage:** Refers to all debts on single detached dwellings owned and occupied by persons other than farm operators.

**Holder of first mortgage:** Refers to the person or organization to whom the first mortgage payments are made.

**Garage:** Refers to a structurally enclosed building used to store automobiles, situated on the property on which the dwelling is located, even if it is rented to others.

**Cash rent:** Refers to the dollar amount required to secure occupancy, but not the ownership, of a dwelling for either the week or month prior to enumeration day.

**Items included in rent:** Refers to the living conveniences and facilities for which the tenant has no amount to pay over and above his cash rent.

**Gross rent:** Refers to the total amount paid out by a tenant to secure and maintain a dwelling along with its household facilities. Included are the cash rent and such other payments as water, electricity, gas or fuel which were not included in the cash rent.

Definitions of these and other terms, including geographic terms, used technically in this report are discussed in the Introductory Report Volume II, Part 3 (2.3-1).

## DÉFINITIONS

**Logement:** Ensemble structurellement distinct de pièces d'habitation ayant une entrée privée donnant sur l'extérieur ou sur un corridor ou un escalier commun à l'intérieur, c.-à-d. que l'entrée doit donner accès au logement sans qu'on ait à passer par les pièces d'habitation de quelqu'un d'autre.

**Possédé:** Logement qui appartient à un membre du ménage. Cela vaut également pour les logements appartenant à des propriétaires distincts dans les constructions à logements multiples.

Un logement est classé comme "possédé" même s'il est hypothéqué.

**Loué:** Logement qui n'appartient pas à un membre du ménage.

**Valeur:** Les chiffres pour la "valeur" se rapportent aux logements individuels non agricoles, non attenants occupés par leur propriétaire et sont basés sur le montant que s'attendrait de recevoir le propriétaire s'il vendait le logement à un acheteur libre.

**Hypothèque:** Toute dette grevant un logement individuel non attenant possédé et occupé par des personnes autres que des exploitants agricoles.

**Détenteur de la première hypothèque:** Personne ou organisme à qui sont faits les versements sur la première hypothèque.

**Garage:** Construction fermée servant à remiser une automobile et située dans la même propriété que le logement, même si le garage est donné en location.

**Loyer en espèces:** Somme versée pour avoir le droit d'occuper un logement (sans en être le propriétaire) pendant la semaine ou le mois précédant le jour du dénombrement.

**Services compris dans le loyer:** Éléments de confort et services pour lesquels le locataire n'a rien à déboursier en plus du loyer fixé.

**Loyer brut:** Montant total que paye un locataire pour obtenir et maintenir un logement avec son équipement ménager. Ce montant comprend le loyer en espèces et les autres paiements (eau, électricité, gaz et combustible, par exemple) qui ne sont pas compris dans le loyer en espèces.

Les définitions de ces termes et d'autres termes techniques employés dans les bulletins de la présente série sont données dans l'Introduction au volume II, partie 3 (2.3-1).

## Publications of the Census of Canada, 1971

This report is one of the Volume Series of publications of the 1971 Censuses of Population, Housing and Agriculture. Altogether, there are some 225 reports in this series prepared in such a way that by removal of their covers the contents can be combined to form the materials comprising the 6 volumes and 25 separate volume parts in the entire series. A hard-covered binder, suitably titled, is included in the composite price to purchasers of the complete set of reports for any given volume part.

### Catalogue of reports

A catalogue is available which describes the individual reports in the Volume Series of 1971 Census publications as well as reports in other series (i.e., Advance Series, Census Tract Series, and Special Series). The catalogue also includes a price list and an order form. A copy of this catalogue may be obtained from Publications Distribution, Statistics Canada, Ottawa K1A 0T6. For further information on census publications, address your inquiry to Information Division, Statistics Canada.

### How to order reports

Orders for reports may be sent to Publications Distribution, Statistics Canada, Ottawa K1A 0T6, or to Publishing Division, Information Canada, Ottawa K1A 0S9. Enclose payment with your order in the form of a cheque or money order made payable to the Receiver General of Canada. If more convenient, census publications may be ordered from Information Canada bookstores in Halifax, Montreal, Ottawa, Toronto, Winnipeg, or Vancouver. For other details concerning deposit accounts, bulk orders, etc., contact Publications Distribution, Statistics Canada.

### Other forms of publication

In addition to the tabulated results of the 1971 Census published in reports and bulletins, a large number of tables will be issued to users as copies of computer print-outs. These will also be available in microform. A variety of statistical tables may be purchased on computer "summary" tapes for further computer analysis by users. Details of the content, prices, and availability of census tabulations in these output media may be obtained from the User Inquiry Service, Census Division, Statistics Canada, Ottawa K1A 0T7.

### Special tabulations

To the extent that confidentiality constraints permit, Statistics Canada will produce for users at cost, special tabulations not already included in the planned tabulation programme. A standard User's Request Form on which to outline precise tabulation requirements and to request time and cost estimates may be obtained from the User Inquiry Service of the Census Division of Statistics Canada.

### Maps and geographic files

Large-scale maps may be purchased to show the boundaries of enumeration areas (i.e., the territory covered by each Census Representative in taking the census), as well as small-scale maps of census divisions and other statistical areas. Supporting documentation relating to the census geographic files (i.e., place names; codes, etc.) are available in tabular form identifying the component enumeration areas of administrative and statistical units (e.g., towns, villages, municipalities, tracts). Further details, including costs to users, may be obtained from the User Inquiry Service of the Census Division of Statistics Canada.
